

Our purpose is to research, record and preserve the history of the parishes of Wherwell and Chilbolton, and to maintain an archive of sound recordings and written or photographic material. Major parts of our archive, approximately 2,500 photographs and 700 documents, will be published as an online research facility attached to our new website at <https://www.wherwellhistory.com>. We also organise a yearly programme of eight illustrated talks and one or two local guided visits.
